

MINDSEYE MOBILE

FULL FEATURED AND READY TO TRAVEL

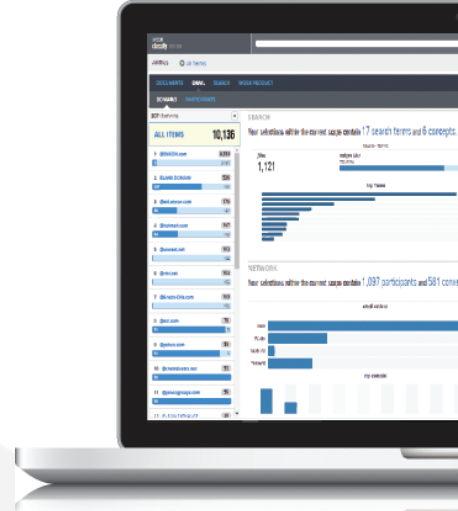

Conducting eDiscovery in foreign jurisdictions comes with a set of technical, security and logistical challenges. Mindseye Mobile offers the same speed, comprehensive processing power, and analytical data-intelligence capabilities of the larger Mindseye Discovery appliance, but in a portable package that's easy to transport, set up and use.

Mindseye Mobile is a self-contained, compact laptop solutions that can be tucked into an overhead storage bin on an airplane and deployed on site in as little as 15 minutes—and all without the help of an IT staffer. Because it is simple to deploy, the portable solution addresses today's time-sensitive matters without delay.

A Worthy Addition to the Team

Able to process 10-20 GB per hour, Mindseye Mobile provides legal professionals, investigators, and compliance officers with a tool to quickly process and analyze data on site within tight deadlines. Mindseye Mobile smartly performs early case assessment and quickly filters data so that companies can greatly reduce the volume of data that not only leaves the company—but is also pushed into review.

Mindseye Mobile will be one of the most valuable assets of your firms' travel team, providing it with a tool that is highly effective and truly portable.

SENSITIVE DATA

Robust solution put you in control of your data. Enables organizations to filter, analyze, and define their data while addressing data protection and privacy requirements.

FCPA

Perfect teammate when you need to deploy a portable yet highly scalable solution to meet the ever growing challenges of an FCPA investigation without sacrificing quality or control.

CROSS-BORDER

Eliminates the complexity of international eDiscovery and reduces the costs and risk associated with processing, analyzing, and exporting across multiple jurisdictions.

E-DISCOVERY

INVESTIGATIONS

COMPLIANCE
